

Whoa, thanks for getting me out of this package.

I can't wait to get started playing Talking Tom® games and, well, sitting around talking. You're now my new best buddy! We've got lots to do, you gotta follow these steps below. It's easy-peasey, but you've got to do it now. Honestly, it will be fun!

First, if you haven't already, download the free pairing app by either entering this URL <https://gamebud.com/talkingtom/pair> or scan this QR Code on your phone or tablet.

This will get you the ever-so-important app that makes me work. Can't do much without it, so please download it right away! Oh, and make sure your Bluetooth on your device is turned on in order to do the set up.

Second, make sure my battery is charged. It tells you how in the app, but if you can't wait, you can just plug in the included micro-USB charging cable into the slot on my back and wait until the little light next to it turns Green. Orange means I'm in the process. Green means I'm good to go. All

Third, once you get the pairing app connected to your Wi-Fi, you can open TALKING TOM HERO DASH or TALKING TOM GOLD RUN and start playing. I'll join you and keep you company as you play. Of course, I tend to say what I want when I want!

If you just want to talk a bit with me, (your new best friend), about all sorts of stuff, press down on my head and I'll start the conversation and ask you a few things as well. You never know what I'm going to talk about. Change the subject by pushing on my head again. Go ahead, it won't hurt my feelings. And when you're done talking, just leave me alone and I most likely will fall into a dreamy sleep.

If you want to know a lot more, you can download a detailed instruction manual <https://gamebud.com/talkingtom/instructions>. It has loads of fun information... way more than you will ever need.

FCC Compliance Statement

This device complies with Part 15 of the FCC Rules. Operation is subject to the following two conditions: (1) this device may not cause harmful interference, and (2) this device must accept any interference received, including interference that may cause undesired operation. Changes or modifications not expressly approved by the party responsible for compliance could void the user's authority to operate the equipment.

This equipment has been tested and found to comply with the limits for a Class B digital device, pursuant to Part 15 of the FCC Rules. These limits are designed to provide reasonable protection against harmful interference in a residential installation. This equipment generates, uses and can radiate radio frequency energy and, if not installed and used in accordance with the instructions, may cause harmful interference to radio communications. However, there is no guarantee that interference will not occur in a particular installation.

If this equipment does cause harmful interference to radio or television reception, which can be determined by turning the equipment off and on, the user is encouraged to try to correct the interference by one or more of the following measures:

- Reorient or relocate the receiving antenna.
- Increase the separation between the equipment and receiver.
- Connect the equipment into an outlet on a circuit different from that to which the receiver is connected.
- Consult the dealer or an experienced radio/TV technician for help.

FCC SAR statement

This equipment complies with FCC radiation exposure limits set forth for an uncontrolled environment. End user must follow the specific operating instructions for satisfying RF exposure compliance. This transmitter must not be co-located or operating in conjunction with any other antenna or transmitter.

The portable device is designed to meet the requirements for exposure to radio waves established by the Federal Communications Commission (USA). These requirements set a SAR limit of 1.6 W/kg averaged over one gram of tissue. The highest SAR value reported under this standard during product certification for use when properly worn on the body.

ISED compliance statement

This device contains licence-exempt transmitter(s)/receiver(s) that comply with Innovation, Science and Economic Development Canada's licence-exempt RSS(s). Operation is subject to the following two conditions:

- (1) This device may not cause interference.
- (2) This device must accept any interference, including interference that may cause undesired operation of the device.

L'émetteur/récepteur exempt de licence contenu dans le présent appareil est conforme aux CNR d'Innovation, Sciences et Développement économique Canada applicables aux appareils radio exempts de licence. L'exploitation est autorisée aux deux conditions suivantes:

- (1) L'appareil ne doit pas produire de brouillage;
- (2) L'appareil doit accepter tout brouillage radioélectrique subi, même si le brouillage est susceptible d'en compromettre le fonctionnement.

IC SAR statement

This equipment complies with ISED radiation exposure limits set forth for an uncontrolled environment. End user must follow the specific operating instructions for satisfying RF exposure compliance. This transmitter must not be co-located or operating in conjunction with any other antenna or transmitter.

The portable device is designed to meet the requirements for exposure to radio waves established by the ISED. These requirements set a SAR limit of 1.6 W/kg averaged over one gram of tissue. The highest SAR value reported under this standard during product certification for use when properly worn on the body.

Cet équipement est conforme aux limites d'exposition aux rayonnements ISED établies pour un environnement non contrôlé. L'utilisateur final doit suivre les instructions spécifiques pour satisfaire les normes. Cet émetteur ne doit pas être co-implanté ou fonctionner en conjonction avec toute autre antenne ou transmetteur.

Le dispositif portatif est conçu pour répondre aux exigences d'exposition aux ondes radio établie par le développement énergétique DURABLE. Ces exigences un SAR limite de 1,6 W/kg en moyenne pour un gramme de tissu. La valeur SAR la plus élevée signalée en vertu de cette norme lors de la certification de produit à utiliser lorsqu'il est correctement porté sur le corps.

QUICK START INSTRUCTION SHEET

TALKING TOM

**Please don't put things
in my mouth like fingers,
food or your phone!**

A few tips before you start.

- Make sure I'm on by pressing down on the top of my head. Pressing down for more than three seconds turns me off. If you don't do anything, I will go into a sleep mode and turn off until you wake me again.
- Always check to see if my battery is charged by looking for the green light on the back when the charging cable is plugged in. Orange flashing light means I'm charging, green means all good to go. Don't try to take my battery out because it's not supposed to be and that's a good thing.
- I will only respond to certain words during our conversation. I'm all ears, but sometimes I need you to say that word again.
- Keeping me sorta close, like within a few feet, ensures I can respond to your game play.
- Please, please don't put things in my mouth. It will just mess things up a lot. And they tell me it will invalidate my warranty.
- My ears move easily, but don't fidget with them. They are sensitive, and it only messes them up... again.
- If for some strange reason, I don't wake up and turn on, you might have to reset me by finding the tiny hole on my back and inserting the end of a paperclip. That should do it!
- Oh, one important thing to remember, I don't like water. So don't spill any on me! You can take a damp cloth to clean me off but keep me away from the tub, or pool or... well you get what I mean! This may invalidate the warranty.

And now for some important information about me, the GAMEBUD™ Talking Tom®!

COMPLIANCE

GAMEBUD™ Talking Tom® passes all ASTM F963 compliances, as well as FCC and others. Look for the symbols.

We have a third-party expert testing agency making sure we are all up to the levels of excellence you're used to.

HUGE PLAY TTV, INC

This is important: You should be aware that HUGE Play TTV, Inc is only responsible for HUGE Play TTV, Inc generated content. Nothing more!
