**Federal Communication Commission Interference Statement**

This equipment has been tested and found to comply with the limits for a Class B digital device, pursuant to Part 15 of the FCC Rules. These limits are designed to provide reasonable protection against harmful interference in a residential installation. This equipment generates, uses and can radiate radio frequency energy and, if not installed and used in accordance with the instructions, may cause harmful interference to radio communications. However, there is no guarantee that interference will not occur in a particular installation. If this equipment does cause harmful interference to radio or television reception, which can be determined by turning the equipment off and on, the user is encouraged to try to correct the interference by one of the following measures:

- Reorient or relocate the receiving antenna.
- Increase the separation between the equipment and receiver.
- Connect the equipment into an outlet on a circuit different from that to which the receiver is connected.
- Consult the dealer or an experienced radio/TV technician for help.

This device complies with Part 15 of the FCC Rules. Operation is subject to the following two conditions: (1) This device may not cause harmful interference, and (2) this device must accept any interference received, including interference that may cause undesired operation.

**Radiation Exposure Statement:**  
The product complies with the FCC portable RF exposure limit set forth for an uncontrolled environment and is safe for intended operation as described in this manual. The further RF exposure reduction can be achieved if the product can be kept as far as possible from the user body or set the device to lower output power if such function is available.

**FCC Caution:** Any changes or modifications not expressly approved by the party responsible for compliance could void the user's authority to operate this equipment.

**Before Use**

Notes:  
All parts have to be unpacked and the packaging material has to be removed completely. Before use, verify the package contents are complete and undamaged.

**BATTERY WARNING STATEMENT**  
Do not mix old and new batteries.  
Do not mix alkaline, standard (carbon-zinc), or rechargeable (ni-cad, ni-mh, etc) batteries.

Walmart Inc., Bentonville, AR 72716

**System Requirements**

- \* Windows 7/8/10/11 or newer version, Mac OS 10.5 or newer version and Chrome OS
- \* Available USB port or Bluetooth® on your laptop or computer

**What's in the Box**

1 Wireless Mouse 1 Wireless Keyboard 1 USB nano receiver  
1 AA battery 2 AAA batteries

**Specification**

**Keyboard**

- \* Full keyboard layout with 100 keys and built-in phone/tablet stand
- \* Compatible with tablets up to 13 in (33 cm) long and 0.41 in (1 cm) thick
- \* 18.79 in L x 7.47 in W x 0.87 in H (37.5 cm x 18.9 cm x 2.2 cm)

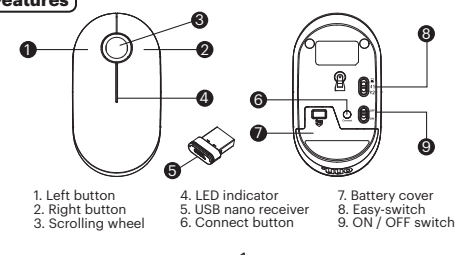

**Mouse**

- \* 3 clickable buttons with scroll wheel and 1600 DPI sensitivity
- \* USB nano receiver (stores in battery compartment when not in use)
- \* 4.41 in L x 2.39 in W x 1.27 in H (11.2 cm x 6 cm x 3.2 cm)

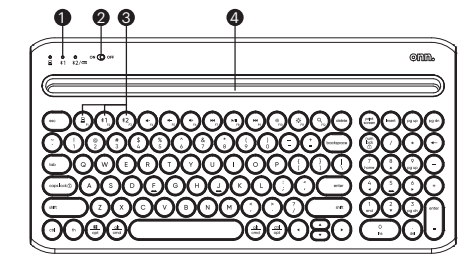

**Both**

- \* 3 different wireless connection options available- 2 Bluetooth® channels and 1 2.4GHz USB receiver
- \* Windows, MacOS, ChromeOS, Android, iOS compatible
- \* USB plug and play

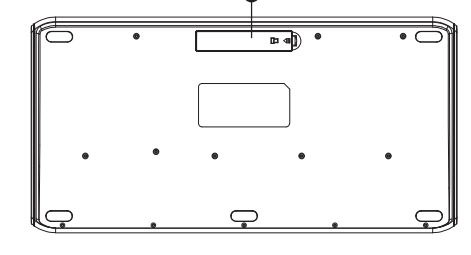

**Features**

- Left button
- Right button
- Scrolling wheel
- LED indicator
- USB nano receiver
- Connect button
- Battery cover
- Easy-switch
- ON / OFF switch

- LED indicators
- ON / OFF switch
- Easy-switch keys
- Phone/tablet stand
- Battery cover

- LED indicators
- ON / OFF switch
- Easy-switch keys
- Phone/tablet stand
- Battery cover

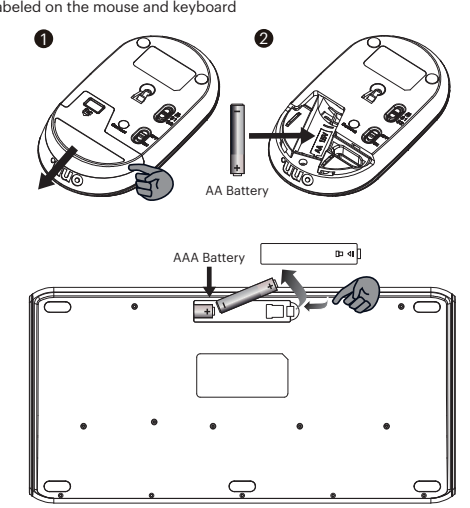

**Function Keys**

Press F1 - F12 will perform as shortcut function keys below	
F1	Switch to wireless USB nano receiver channel 1
F2	Switch to Bluetooth channel 1
F3	Switch to Bluetooth channel 2
F4	Mutes (turns off) the device's sound
F5	Decrease the device's volume
F6	Increase the device's volume
F7	Switch to previous media track
F8	Play media or pause current media track
F9	Switch to next media track
F10	Decrease display brightness
F11	Increase display brightness
F12	Open Windows Search

**Press and hold Fn + F1 - F12 will perform as standard function keys**

**Installing the batteries**

Insert the battery with the correct position according to the instruction labeled on the mouse and keyboard.

折線 折線 折線 折線 折線 折線 折線 折線

**Switch Connection Channel**

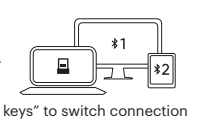

The mouse and keyboard can both connect up to 3 different computers, you can change connection channels between USB nano receiver and 2 other Bluetooth channels.

**Mouse**  
Use "Easy-switch" on the bottom to change connection channels

**Keyboard**  
Use "Easy-switch keys" to change connection channels

The corresponding LED indicator will light up green when its channel is set. For example, when you press Bluetooth 1 (1), its LED indicator will light up

**Switch between different devices**  
For example, you can set:  
USB nano receiver (1) on computer A  
Bluetooth 1 (1) on computer B  
Bluetooth 2 (2) on computer C  
then use "Easy-switch and Easy-switch keys" to switch connection between these 3 computers

**Connection Setup**

**Connect via USB nano receiver**  
It is plug and play with USB nano receiver, make sure to turn on power and set both mouse and keyboard connection channels on USB nano receiver (1), plug USB nano receiver into an available USB A port on your computer and start surfing on.

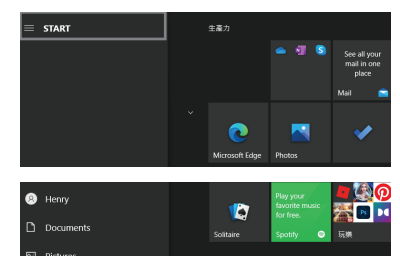

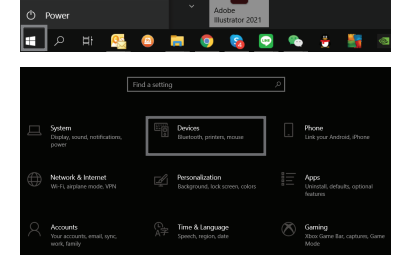

**Connect via Bluetooth in Windows**  
Turn on your mouse and keyboard, set them to either Bluetooth 1 (1) or Bluetooth 2 (2)  
Click on "Start" (bottom left corner on your screen)  
Go to Settings  
-> Device => Bluetooth & other devices -> Turn on Bluetooth  
-> Add Bluetooth or other device -> Add a device (Bluetooth)

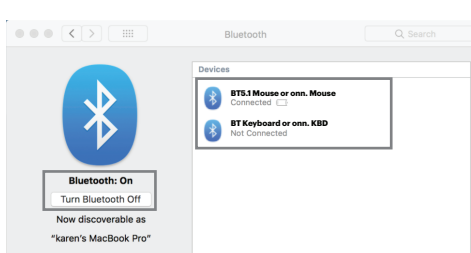

**Mouse**  
**Press and HOLD "Connect" button** to set mouse in Bluetooth pairing mode

Click on "BT5.1 Mouse or onn. Mouse" in the list on your computer to setup pairing. LED will stop flashing and light up for 3 seconds when complete

**Keyboard**  
**Press and HOLD "Easy-switch key"** to set keyboard in Bluetooth pairing mode

The corresponding LED indicator will start flashing green in pairing mode. Click on "BT Keyboard or onn. KB7" in the list on your computer to setup pairing. LED will stop flashing and light up for 3 seconds when complete

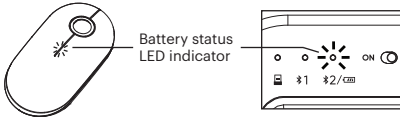

**OS - Manual Selection**

= iPhone OS  
 = Windows OS  
 = Android™ Chrome OS™

Keyboard will automatically detect your Operating System (OS) providing correct functions and shortcuts. To do this manually, select the proper OS by using the key combination above

**Low Battery**

If LED starts blinking, you need to change battery

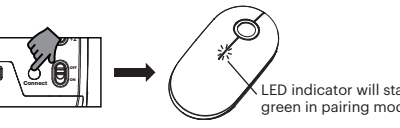

**Help with Setup**

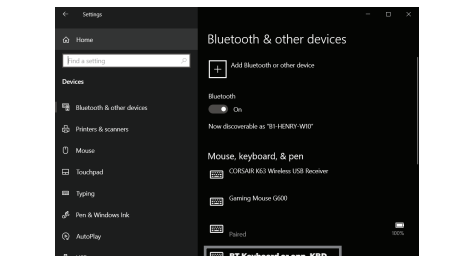

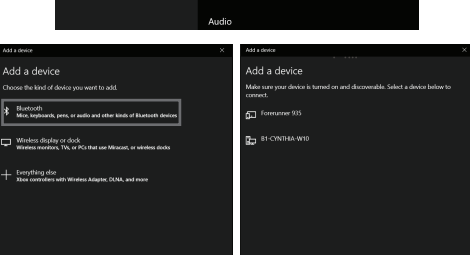

**USB nano receiver**  
Mouse and keyboard are not working?  
1. Are they powered on? Make sure both channels are set on (1) or (2)  
2. Is the nano receiver securely plugged into a USB port?  
3. Try changing USB ports.  
4. Check the orientation of the batteries inside  
5. Try a different surface. Remove metallic objects between the mouse (keyboard) and the nano receiver

If it is still not working, try steps below to re-pair them with the nano receiver

**Mouse**  
A. Re-plug receiver into USB port on computer, make sure channel is set on (1)  
B. Press connect button on mouse (keep mouse close to receiver)  
C. If it does not work after 10 seconds, repeat steps A and B

LED indicator will start flashing green in pairing mode

**Keyboard**  
A. Re-plug receiver into USB port on computer, make sure channel is set on (1)  
B. Press and hold "Easy-switch key" (keep keyboard close to receiver)  
C. If it does not work after 10 seconds, repeat steps A and B

Press and hold this key until the corresponding LED indicator starts flashing green

**Bluetooth**  
Mouse and keyboard are not working?  
1. Are they powered on? Make sure both channels are set on (1 or 2)  
2. Make sure to turn on Bluetooth function on your computer  
3. Check the orientation of the batteries inside  
4. Try a different surface. Remove metallic objects between them and the computer  
5. Set them in pairing mode, make sure they are discoverable on your computer and then complete pairing  
5. If it does not work after 10 seconds, repeat step 1 to 3

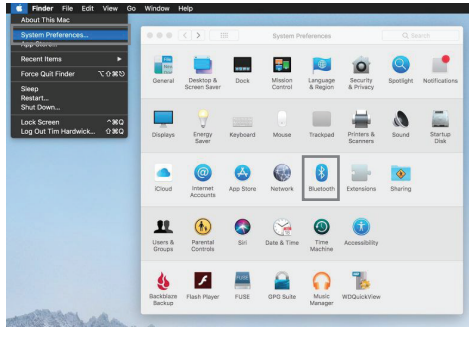

**Reconnection**  
Under Bluetooth connection (either Bluetooth 1 or 2) mouse and keyboard can automatically reconnect to their last connected computer. If it fails, you can always re-pair again
